INDUSTRIAL Alu

Questa finitura nasce da un processo produttivo esclusivo che differisce dallo standard, la particolare lavorazione dona alla superficie una speciale texture ricca di personalità; formata da milioni di piccole incisioni che restituiscono una suggestiva riflessione e una morbida sensazione al tatto. Il materiale conserva tutte le sue caratteristiche primordiali, non essendo lavorato e trattato in alcun modo, al fine di non alterarne le proprietà.

This finish is the result of an exclusive production process that is different from any other standard one. With this innovative process the texture of the surface makes a personality statement; millions of tiny cuts create charming reflections and at the same time are soft to the touch. The original characteristics of the material are left unchanged; since it is not machined or treated in any way to keep all its properties intact.

Cette finition est née par un procédé de fabrication exclusif qui diffère du standard. Le procédé particulier donne une texture spéciale à la surface riche en personnalité ; formé par des millions de petites incisions qui renvoient une réflexion suggestive et un sentiment doux au toucher. Le matériau conserve toutes ses caractéristiques primordiales, n'étant pas usiné et traité de quelque manière, afin de ne pas altérer ses propriétés.

Эта отделка получается посредством эксклюзивного производственного процесса, значительно отличающегося от стандартных. Особая обработка придаёт поверхности необычную текстуру с ярким характером, состоящую из миллионов маленьких надрезов, создающих особый блеск и ощущение мягкости на ощупь. Материал не подвергается никакой особой обработке и сохраняет все свои изначальные характеристики.
